BACKGROUND

The 25th International Conference on System Theory, Control and Computing ICSTCC 2021 aims at bringing together under a unique forum, scientists from academia and industry to discuss the state of the art and the new trends in system theory, control and computer engineering, and to present recent research results and prospects for development in this rapidly evolving area.

The conference will be for the 12th time organized in this format, joining four previous different scientific meetings: *SINTES* (International Conference on System Theory and Control) - organized by the Faculty of Automation, Computers and Electronics from the University of Craiova; *SACCS* (International Symposium on Automatic Control and Computer Science) - organized by the Faculty of Automatic Control and Computer Engineering from the "Gheorghe Asachi" Technical University of Iasi; *SIMSIS* (International Symposium on Modelling, Simulation and Identification Systems) - organized by the Faculty of Control Systems, Computers, Electrical and Electronics Engineering from the "Dunărea de Jos" University of Galați, and *CONTI* (International Conference on Technical Informatics) – organized by the Faculty of Automation and Computers from the Politehnica University of Timisoara

Starting from 2011, ICSTCC was technically co-sponsored by IEEE Control Systems Society and the Proceedings of every edition have been included in IEEE Xplore Digital Library. For the 2013 and 2015-2019 editions the Proceedings are indexed in Clarivate Analytics Web of Science. ICSTCC 2021 is also technical co-sponsored by IEEE Control Systems Society and the Proceedings will be included in IEEE Xplore Digital Library.

ICSTCC 2021 will feature several kinds of presentations, including invited talks, contributed papers, special sessions and contributions from industry, a seminar for young researchers and PhD students, and a meeting dedicated to Women in Engineering, Research and Development. The outcome of ICSTCC 2021 is hoped to be an inclusive event, a comprehensive view of some leading research areas: control, robotics, computers, electrical and electronic engineering.

PAPERS SUBMISSION

Full papers should be submitted by using the PaperCept Conference Management System. Information about the web upload is available on the ICSTCC 2021 website. All materials must be written in English. Submitted papers will undergo a peer review process, coordinated by the International Program Committee. All submissions will be tested for similarity and overlap with prior published material using the iThenticate tool. The cases of possible violations of the IEEE ethics rules in publishing will be investigated by a dedicated committee.

Accepted papers will be published in the conference proceedings, provided that at least one of the authors attended the conference and presented the paper.

The final form of the papers must meet IEEE pdf compliance requirements. Maximum eight pages A4 in double column format are allowed. However, each page in excess of six will incur a charge of 50 Euros.

INVITED SESSIONS

Proposals for INVITED SESSIONS in the scope of the conference are welcome. People interested in organizing an Invited Session should submit the proposal via web upload by April 15, 2021. A proposal for an INVITED SESSION should include the title of the session, a half-page description of its topic, and preferably a list of five or six papers (authors and tentative titles) that will be submitted to the session. Papers submitted for a special session will be reviewed in the same manner as the regular papers.

PUBLICATION AND COPYRIGHT

Papers submitted for presentation should contain original research, not published or being considered for publication elsewhere. Authors of accepted papers are expected to attend the conference and present the paper. As part of the submission procedure, authors of accepted papers must send a signed Copyright Form for each paper. In the absence of such a form, the paper cannot be published.

CONFERENCE VENUE

[Iasi](#) is the second largest city in Romania. Located in the historical region of Moldavia, Iași has traditionally been one of the leading centers of Romanian social, cultural, academic and artistic life. Home to the oldest Romanian university and to the first engineering school, Iași is one of the most important education and research centers of the country.

[The Palace of Culture](#) was conceived as a rebuilding and expansion of the former Princely Palace of Moldavia. Inaugurated in 1925, it was designed in a flamboyant Neo-Gothic style. It hosts four museums: Art Museum, Moldavia's History Museum, Ethnographic Museum of Moldavia, and "Ștefan Procopiu" Science and Technique Museum, nowadays united under the name of Moldavia National Museum Complex.

[Palas Congress Hall](#) is located on the last floor of Palas Mall and in Palas Park. Having direct access from the outside, the halls feature green terraces and offer a splendid panorama on the Palas Garden and the Palace of Culture.
